

Global Payments Restaurant POS

A powerful, scalable, feature-rich point of sale software solution, designed for all restaurants.

Global Payments Restaurant POS is a robust, all-in-one cloud-based point-of-sale solution, that is designed for fine, casual, and quick service dining environments.

From tableside to delivery, kiosk to kitchen, and countertop to online, the solution streamlines restaurant operations, front-to-back, to make it easier for restaurant owners to manage and grow their businesses.

Global Payments is the world's most complete commerce ecosystem, delivering continuous innovation that businesses, like yours, need to operate and grow. Our authorized Dealer network can help you save and streamline your restaurant operations front-to-back with local service and support.

All the features you need **at no extra charge**

- Online ordering. Take your business where your customers are, and enable them to view your menu, pay for delivery and pickup order from anywhere and any device.
- Self ordering kiosk. Allow your guests to bypass long counter lines for a faster, more efficient service.
- Kitchen display system. Increase your kitchen's productivity with orders coming through in real-time from the table, counter, bar, kiosk, and online.
- Guest app. Connect with your customers by offering discounts, loyalty points, ordering ahead and skipping the line, and scanning to pay their bills using their own device.
- And more. From taking orders at the table on the tablet and texting your guests when their order is ready, to assigning delivery orders with turn-by-turn directions right from the POS terminal, we have it all covered.

More reasons why you need a robust, streamlined solution

- Turn tables faster, delight your customers, and generate more business.
- Sync servers and your kitchen in real-time to deliver optimal service.
- Elevate your guest experience with loyalty points, special offers, scan-to-pay with text, email or paper receipts and more.
- Enable skip-the-line option for your customers.
- Set up online ordering in minutes—with your own branding—even if you don't have a website.
- Access your menu, inventory, and sales information from any device and location.
- Local and remote customer service from Global Payments and our Dealer network, that's available 24/7/365.

Cloud-based solution to deliver maximum flexibility

- Whether you own one, or multiple restaurants, save time and effort by managing your restaurant operations from wherever you are.
- Maintain visibility over end-to-end operations from any Internet-enabled device.
- Access real-time reporting to ensure you always have enough staff and inventory on hand.
- Continue to take orders, payments and print tickets even if the internet goes down.
- Your restaurant data is continually backed up and secured with end-to-end encryption.
